Dear Mrs. Terry:

We are unable to get any information from our registrars concerning a death record for Carol Emily Terry, and are writing to you, the mother, for information.

Where and when was this child born and where did it die? Also, name of the attending physician.

If you will kindly give us the desired information, we will be able to close this case.

Notation on the bottom of this letter will be satisfactory, and greatly appreciated.

Thanking you, we are,

Very truly yours,

UNITED STATES STANDARD CERTIFICATE OF DEATH

STATEMENT OF OCCUPATION.—Precise statement of occupation is very important, so that the relative healthfulness of various pursuits can be known. Make some entry in this section for every person aged 10 years or over. If the deceased had retired from business, report the occupation prior to retirement. Children not gainfully employed may be returned as at school or at home. For a woman whose only occupation was that of home housework, write housewife in answer to Question 8 and own home in answer to Question 9. For a person engaged in domestic service for wages, however, designate the occupation by the appropriate terms, as servant—private family, cook—hotel, etc. For a person who has no occupation whatever write none.

To be complete an occupation return must state:

8.—The trade, profession, or particular kind of work done.
9.—The industry of business in which the work was done.
10.—The month and year the deceased last worked at the occupation.
11.—The number of years the deceased followed the occupation.

In stating the occupation, avoid the use of such indefinite terms as "employees," "worker," "operative," etc. Find out the particular kind of work done and return that as spinner, weaver, etc.

In stating the industry or business, avoid the use of such general terms as "store," "factory," "mill," etc. State the particular kind of store, factory, mill, etc., as grocery store, soap factory, cotton mill, etc.

Distinguish carefully the different kinds of engineers by stating the full descriptive titles, as civil engineer, mechanical engineer, mining engineer, stationary engineer, etc. Avoid the term "laborer" when a more precise statement of the occupation can be secured. Do not use the word "mechanic," but give the exact occupation, as carpenter, painter, machinist, etc. Distinguish carefully between retail merchants and wholesale merchants. A person who sells goods should be called a salesman and not a clerk.

STATEMENT OF CAUSE OF DEATH.—Cause of death means the disease, injury, or complication which causes death, not the mode of dying, e. g., heart failure, asphyxia, asthenia, etc. As principal cause name the disease or injury causing death. As related causes, name earlier morbid conditions, if any, related to the principal cause and any important complication of the principal cause. Under other contributory causes of importance, name other important diseases or injuries. Examples:

EXAMPLE I

The PRINCIPAL CAUSE OF DEATH and related causes of importance were as follows:	Date of onset
Arteriosclerosis	1915
Chronic interstitial nephritis	1921
Cerebral hemorrhage	July 5, 1927
Other CONTRIBUTORY CAUSES of importance:	
Gallstones	May 1, 1923

EXAMPLE II

The PRINCIPAL CAUSE OF DEATH and related causes of importance were as follows:	Date of onset
Attack of epilepsy	1 week ago
Run over by street car	1 week ago
Peritonitis	3 days ago
Other CONTRIBUTORY CAUSES of importance:	
Gastroenteritis	1 year

JUN 16 1938

Dear Sirs:-

I saw Florence Orr for the first time during the early forenoon of May 16th, 1938. She was suffering from a generalized peritonitis, and was in a dying condition. Her general condition prohibited the obtaining of any history of her illness from herself; and her family could give no intelligible history, other than that she had been sick off and on "just like this" ever since she was operated on for acute appendicitis several years ago. She died about three hours after I saw her. No autopsy was obtained. She died of Peritonitis. Whether it was streptococcic, staphlococcic, bacillary, or gonococcic is not known. Whether the primary pathology was in an appendix which was supposed to have been removed but was not removed, in the pelvis, in a diverticulum, in the gall bladder or pancreas, or in the form of a peptic ulcer is not known. As is true of all deaths, her heart failed, and she died.

Knowing these facts, you can probably guess the primary cause of death as well as I can.

Very Truly Yours,

Earl C. Jensen
